- b) *The teacher(s) will use the Assessment guide provided to assess the learner's work.*
- c) *Samples of work that show the learners progress and performance on the tasks should be maintained as evidence.*
- d) *Samples of work selected for evidence should aim at demonstrating the learner's progress and achievement on the different stages of project implementation.*
- e) *Implementation of the project should be completed by the **end of October 2024**.*
- f) *The marks awarded for the performance level demonstrated should be recorded on the score sheet provided.*

PERFORMANCE TASK

1 Fruit or Vegetable Container Gardening for sale

1.1 Individually, learners to search for information and prepare notes on how to

- (a) produce and sale fruits or vegetables of their choice using container gardens;
- (b) use income generated to solve an identified need in the class.

1.2 In groups of 4-6 learners, each learner takes a turn to orally present to the group on how to produce, sale and use income from the fruit or vegetable crop chosen. **One group member should video record the presentation and when it is his/her turn, another group member should take over the video recording.**

1.3 The group members should then discuss and agree on the type of fruit or vegetable crop to grow for sale. **One group member should video record the discussion and when it is his/her turn, another group member should take over the video recording. 5-8 minutes video clip per group.**

1.4 The group should then orally present to the class how it will grow and sell the crop chosen.

1.5 The fruit or vegetable crop selected should be early maturing within the period of the project.

- 1.6 The group members should then obtain appropriate tools and materials for the project.
- 1.7 The learners should then dress appropriately and establish the crop in their groups.
- 1.8 The learners should regularly launder the clothing used during the project activities.
- 1.9 After the sale of the crop, each group member should identify and propose a need on which the money generated can be used. The group members should then discuss and agree on one need the group should address.

2 Each learner will be assessed on the following:

- 2.1 Information collected and notes written on the fruit or vegetable container gardening for sale;
- 2.2 Individual oral presentation to the group;
- 2.3 Participation in the group discussion on fruit or vegetable container gardening for sale;
- 2.4 Participation in fruit or vegetable container gardening and sale;
- 2.5 Appropriate dressing during project activities;
- 2.6 Laundering of the clothing used during project activities;
- 2.7 Quality of the established container garden;
- 2.8 Performance of the fruit or vegetable crop;
- 2.9 Working relationship with others during the project activities
- 2.10 Appropriateness and timely caring practices for the crop.
- 2.11 Impact of the project:
 - (a) quantity of the vegetables harvested;
 - (b) income generated;
 - (c) use of the income to address a pressing need in the classroom.
